TRANSTAR ADDS TWO NEW TRIM BLACK AEROSOLS FOR PLASTIC AND METAL PARTS.

BRIGHTON, Michigan (January 1, 2009) – Transtar has added two new Trim Black aerosol products to its 2 in 1 Body-Tec[®] line. Transtar's 2 in 1 Trim Black products are tough, flexible polymer coatings designed to restore bumpers and flexible or rigid trim to their OEM condition. The products are available in matte and gloss black finishes and have excellent adhesion to urethane, rubber, metal and treated olefin plastics. #4643 2 in 1 Matte Trim Black and #4663 2 in 1 Gloss Trim Black are fast drying, require no priming, and are compliant for sale across the United States.

Package Sizes:

4643 2 in 1 Matte Trim Black, 20 ounce aerosol can, 6/case
4663 2 in 1 Gloss Trim Black, 20 ounce aerosol can, 6/case

For more information, please call 800.824.2843.
